**WHY VOTE?
CAMPAIGN**

WHY VOTE?

Not only are we, as social workers, ethically obligated by our code of ethics to be civically engaged, our participation in politics will benefit our profession, our clients, and our communities. This campaign was designed to educate social work students on the importance of voting but it was also designed to give students the resources and information needed to carry out the campaign and a non-partisan voter registration drive, on their own campuses. There are so many ways to get involved. Get creative and get going!
